1-3pm Futures Discussion

An informal session for any commissioners who are able to stay with invited folks from some of the other "futures" groups who have been or are still doing active collaborative work. There is no formal agenda. This is an attempt to share and connect processes and see if those connections lead to future ideas for coordinating work, study, outreach or thinking more cohesively about directions that emerge from our work. This is not intended to be comprehensive of "futures" thinking in the state, but all of the above have been involved in some sort of collaborative and public outreach efforts with the intent of developing information and ideas on the "future" of Vermont.
